updated 17. 8. 2023 | published 17. 8. 2023

Summary

A simple stand for an A6 label

[Household](#) > [Office](#)

Printing

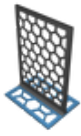

Print lying on the side so that the opening for the paper points up. (See the photo)

Optimized for 0.6mm nozzles with 0.3mm layer height.

- 9999 perimeters (walls)
- No supports
- Use a brim

The two-piece set should come apart nicely for storage and transport. The single piece will be easier to print and sturdier.
