Summary

A vitamin tube holder for six ~29mm tubes that fits into the shelf holes of a METOD cabinet.

[Household](#) > [Kitchen](#)

Tags: [metod](#)

Properties

- Hole diameter: 5mm
- Distance between both holes: 32mm
- Distance from edge to first hole: 17mm
- Opening angle for a tube holder: 130°
- Tube diameter: 28.8mm
- Max tube cap diameter 35mm (with 1.75mm space between)

Printing

The pins need minimal support, depending on your layer height, you might also need to remove some excess on the pins.
