Summary

A clip-on mount for storing soldering tips M2-M8

[Gadgets](#) > [Other Gadgets](#)

Tags: [press](#) [soldering](#) [heat](#) [insert](#) [tip](#) [heatinsert](#)

Simple storage for heat-insert adapters like [this](#). Print standing. Different options depending on your available screws:

BOM (depending on options)

- 7x M4x12 or M4x10 BHCS/Countersunk
- 7x Hex Nut M4

With Hex nuts it's a bit nicer as you can tighten the screw enough so that the tips don't make it turn, but without is fine too.

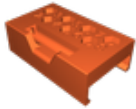

This remix is based on
